Weekly  
Roundup

WR 17-87

April 29, 1987

SEARCHED  
SERIALIZED  
CURRENT SERIAL RECORDS

The Foreign Agricultural Service of the U.S. Department of Agriculture today reported the following developments in world agriculture and trade.

## GRAIN AND FEED

**U.S. Rice Sale To ALGERIA Largest Ever.** The United States recently made its largest rice sale there: 12,000 metric tons of long grain #2-4 percent broken rice under the GSM-102 program. Representatives of the Algerian national grain agency recently visited the United States and were able to see at first-hand the high quality of U.S. rice and the competitiveness of U.S. prices. Traditionally, Thailand has supplied the bulk of Algeria's 20,000 to 25,000 metric tons of rice imports, while the United States has made only small shipments.

\*\*\*\*\*

**SOVIET Plantings Lag Last Year.** As of April 6, a total of 2.3 million hectares of all spring crops had been seeded in the USSR. Of this, 1.1 million hectares were small grains and pulses. In 1986, a year when spring was early, 5.0 million hectares of small grains and pulses had been seeded as of April 7. As of a corresponding date in 1985, the figure was 1.8 million hectares.

Soviet spring planting as of April 6 was included in the quarterly plan fulfillment report published April 24 in Pravda. Typically, spring seeding progress is announced weekly by the Soviets during the season, but this year, perhaps because of the lateness of the season in European USSR, the weekly reports have not begun.

Spring is at least 2 weeks late this year in European USSR, consequently it is likely that the spring seeding figure is largely attributable to work carried out in Soviet central Asia, an area relatively unimportant for grains.

BRIAN NORRIS, Editor, Tel. (202) 447-3448. Additional copies may be obtained from FAS Media and Public Affairs Branch, 5922-S, Washington, D.C. 20250. Tel. (202) 447-7937.

SOVIET UNION Announces 1986 Yield and Production Data. Yield and production data for the 1986 Soviet crops were published by the USSR in the April issue of its statistical journal, Vestnik Statistiki. Those figures, as reported by the U.S. agricultural attache in Moscow, are:

<u>Crop</u>	<u>Yield</u> (mt per hectare)	<u>Production</u> (1,000 mt)
Total grain	1.80	210,068
Winter wheat	2.80	46,528
Spring wheat	1.43	45,778
Winter rye	1.76	15,248
Winter barley	2.95	4,166
Spring barley	1.74	49,723
Oats	1.66	21,929
Corn	2.95	12,479
Millet	0.95	2,368
Buckwheat	0.63	1,009
Pulses	1.17	7,900
Rice	4.24	2,633
Cotton, raw	2.37	8,233
Fine staple	2.39	1,191
Sugar beets, industrial	23.30	79,299
Tobacco, excl. makhorka	1.94	321
Total Oilseeds	1.19	6,228
Sunflowerseed	1.36	5,258
Soybean	0.94	703
Rapeseed (winter & spring)	0.76	110
Potatoes	13.7	87,186
Vegetables	16.4	29,740
Corn for silage and green chop	17.7	316,540

-more-

In its analysis of the 1986 Soviet grain harvest, USDA aggregated the individual crop data into the usual categories which are:

<u>Crop</u>	<u>Yield</u> (mt per hectare)	<u>Production</u> (1,000 mt)
Wheat	1.90	92,306
Coarse grains	1.81	105,913
Miscellaneous grains	1.25	11,849
Total	1.80	210,068

<u>Crop</u>	<u>Yield</u> (mt per hectare)	<u>Production</u> (1,000 mt)
Winter grains	2.47	65,942
Spring grains	1.60	144,126
Total	1.80	210,068

#### DAIRY, LIVESTOCK AND POULTRY

EUROPEAN COMMUNITY Cattle Numbers Falling While Sheep Numbers Are Up. Cattle numbers in the EC (excluding Spain and Portugal) fell 2.4 percent during 1986 to 75.6 million head according to the EC statistical office. December 1986 cow numbers were down 1.5 percent to 29.8 million head with most of the decline due to a 1.9 percent drop in dairy cow numbers. Heifers over 2 years old were down 9.0 percent, and 1 to 2 year olds were down 5.6 percent. The decline is a result of the EC dairy reduction program.

EC sheep numbers were up 4.7 percent to 64.7 million head with ewes up 2.6 percent to 45.7 million. Flocks increased in all EC countries except France where they were down 2 percent to 10.6 million head.

\*\*\*\*\*

EC Poultry Meat Exports Continue To Decline. In 1986, exports of poultry meat from the European Community (EC) to third countries edged down slightly, continuing its downward trend that began in 1982. EC exports totaled 334,000 tons during 1986. EC exports of whole chickens decreased by 23,000 tons, more than any other poultry export category; the EC Commission blames most of this drop on subsidized U.S. exports under the Export Enhancement Program (EEP) to Egypt and the Middle East. The decrease in EC exports to North Africa and the Middle East was partially offset by a large sale of 25,000 tons to the USSR.

-more-

The EC is reportedly looking to develop new markets in East Asia and Africa, as a result of more U.S competition into Egypt and the Middle East. Exports by France, by far the leading EC poultry exporter, to third countries dropped to 207,000 tons last year from 215,000 the previous year, while France's intra-EC sales rose to 66,000 tons from 37,000 tons the preceding year. Reports indicate that, in order to make export sales, French producers are increasingly targeting sales at markets within the EC, especially the United Kingdom and West Germany.

EC consumption of poultry meat continues to rise about 2 to 3 percent annually. Per capita consumption of poultry meat is placed at about 15 kilograms per person, which is still only about half U.S. per capita levels. However, EC per capita consumption is expected to continue to rise inasmuch as more production is being channeled into domestic, rather than export markets.

\*\*\*\*\*

**NEW ZEALAND** Dairy Output Cut by Dry Weather. Milk production in New Zealand is expected to decline 13 percent in the dairy year ending May 31, 1987, according to the U.S agricultural attache in Wellington. Most of the decline is due to the widespread dry weather in the dairy regions which had a severe impact on grazing conditions during most of the year. In addition, several government programs were activated early in the year in an attempt to limit further production increases. Along with the reduction in milk production, dry weather has also negatively affected the fat content of the milk. As a result, total milkfat production is expected to be down 14 percent.

Reflecting the decline in milkfat output, butter production in 1986/87 is expected to be 250,000 tons, 17 percent below 1985/86. The decline in butter is more than that of milk production because relatively more milk is being used for production of full-fat milk powder and cheese. With lower butter production and larger exports, particularly butteroil to Brazil, butter stocks at the end of the season are expected to be down sharply. Cheese production in 1986/87 is forecast at 110,000 tons, 6 percent below year-earlier levels. Output of nonfat dry milk is expected to fall to 185,000 tons, 17 percent below last year. Casein output is expected to about 73,000 tons, slightly below last year's level.

#### TOBACCO

**JAPAN** Liberalizes Its Tobacco Trade. Lower tariffs on imports of U.S. cigarettes went into effect in Japan April 1, 1987. The tariff cuts are the result of the recent Section 301 settlement.

-more-

Other points of contention between the two countries--unequal excise tax treatment between domestic and foreign importing cigarette firms, as well as the cumbersome application procedures for approval of fixed price revisions, have also been rectified. However, Japanese legislators have passed a resolution urging the government to take "appropriate actions" in the case of a "serious impact" from the anticipated escalation of competition from foreign cigarette imports. The resolution reflects the dissatisfaction among Japanese tobacco producers with the trade settlement. Presently, there are no specific measures outlined to roll-back the elements of the 301 settlement. U.S. cigarette exports to Japan in 1986 were 9.64 billion pieces amounting to US\$127.9 million.

#### COCOA

COTE D'IVOIRE Cocoa Crop Forecast At Record High. The 1986/87 cocoa crop in Cote d'Ivoire (The Ivory Coast) is expected to reach a new record level of 590,000 tons, according to the U.S. agricultural attache in Abidjan. Increases in both yields and area are contributing to the higher output. While below-average rainfall, particularly during last July and August, initially dimmed this year's crop outlook, favorable rains since September boosted mid-crop production prospects and better than expected yields from young trees also contributed to higher outturn. The previous record for Cote D'Ivoire was set in 1985/86 when production totaled 580,000 tons.

#### U.S AGRICULTURAL TRADE

Export volume for February 1987 totaled 10.2 million tons, up slightly from the 10.1 million tons exported during February 1986 and 872,000 tons above January's revised figure. Agricultural export value during February 1987 totaled \$2.2 billion, down \$245 million (10 percent) from February 1986, but up \$55.7 million from the previous month's revised figure.

Cumulative U.S. agricultural exports during October-February 1987 totaled \$11.9 billion, down \$876.9 million (7 percent) from the same period a year earlier. Export volume during the first five months of FY 1987 totaled 52 million tons, off approximately 6 percent from the 55 million tons exported during the first five months of FY 1986.

The sharpest cumulative year-to-year market declines were concentrated in grains (wheat and corn). However, significant drops were also registered in exports of vegetable oils, tallow, and peanuts. These decreases are a reflection of both value and volume declines from year-earlier levels.

However, agricultural exports, other than grains, were up \$466 million (6 percent) during October-February 1987 over October-February 1986. The biggest gainers were raw cotton, furskins, beef, soybean meal, poultry products, tree nuts, fruit, vegetables, and sugar and sweeteners.

-more-

U.S. agricultural imports for October-February 1987 totaled \$8.3 billion, down 4 percent from the October-February 1986 total. Imports for February 1987 totaled \$1.7 billion, slightly above February 1986. The overall net surplus of agricultural trade during October-February 1987 amounted to \$3.6 billion, down from a net surplus of \$4.1 billion during the same period a year earlier.

**U.S. Agricultural Trade  
(Billion Dollars)**

	FISCAL YEAR			OCT-FEB		
	1986 Actual	1987 Forecast	Percent Change	1986 Actual	1987 Actual	Percent Change
Exports	26.3	26.0	-1	12.8	11.9	-7
Imports	20.9	20.0	-4	8.7	8.3	-4
Trade Balance	5.4	6.0	---	4.1	3.6	---

**EXPORT ENHANCEMENT INITIATIVES**

The status of USDA's Export Enhancement Program as of April 16, 1987, was as follows in metric tons:

ANNOUNCED INITIATIVES	DATE ANNOUNCED	QUANTITY/RESULTS
66. Turkey rice	Apr. 3, 1987	70,000
65. Colombia barley malt	Apr. 3, 1987	15,000
64. Iraq table eggs	Feb. 20, '87	189 million eggs
63. Canary Islands poultry	Feb. 9, '87	5,000
62. Nigeria wheat	Jan. 28, '87	500,000
61. China wheat	Jan. 26, '87	1,000,000 COMPLETE
60. Iraq wheat	Jan. 16, '87	800,000 Sold 440,000
59. Switzerland barley or sorghum	Jan. 16, '87	250,000 Sold 9,000
58. Poland wheat	Jan. 7, '87	500,000 COMPLETE
57. Poland barley or sorghum	Dec. 31, '86	200,000 Sold 137,000
56. Romania wheat	Dec. 23, '86	250,000
55. Iraq poultry	Dec. 22, '86	60,000 Sold 25,000
54. Dominican Republic table eggs	Dec. 9, '86	25 million eggs Sold 11.1 million eggs
53. Zanzibar wheat flour	Dec. 9, '86	20,000
52. Tunisia barley	Dec. 1, '86	150,000
51. Gulf countries (Bahrain Kuwait, Oman, Qatar, United Arab Emirates) dairy cattle	Oct. 30, '86	1,500 head Sold 740

# FAS Circulars: Market Information For Agricultural Exporters

As an agricultural exporter, you need timely, reliable information on changing consumer preferences, needs of foreign buyers, and the supply and demand situation in countries around the world.

The Foreign Agricultural Service can provide that information in its commodity circulars.

World agricultural information and updates on special FAS export services for the food and agricultural trade all are available in these periodic circulars.

For a sample copy of these reports—which can supply you with the information you need to make sound business decisions—check the box indicated, fill out the address form, and mail it today.

To subscribe: Indicate which publications you want. Send a check for the total amount payable to the Foreign Agricultural Service. Only checks on U.S. banks, cashier's checks, or international money orders will be accepted. NO REFUNDS CAN BE MADE.  
Mail this form to: Foreign Agricultural Service
